About Us

Sleeve Rolls and Pads

Viskon Aire's Dual layer sleeve rolls and pads are designed to replace low efficiency lint, plastic foam, or metal washable filters.

- Available in 7" to 15" in 1/2" increments. Length 100' rolls in dispenser boxes
- · Two layers of progressive density polyester media stitched on two
- Fits on a reusable wire ring which seals easily to prevent air bypass
- · Cut pads available
